

## **MORNINGSIDE PRESS KIT**

In the world of the wealthy where money, power & prestige can form greed, lies, & corruption, two friends reunite in their hometown after being away for years. Both guard deep-rooted secrets from their past, and things on the surface are not as they seem.

## **BIOGRAPHY / FILMOGRAPHY**

### **Director / Co-writer / Producer**

**Debbie P. Kelley (formerly Debbie Cantrell)**

IMDb: <http://www.imdb.com/name/nm5033794/>

Debbie is the owner of OrionStar Productions and she has experience in writing, directing and producing projects in Film, Video, Television, Radio and Theatre. She got her start in the early 1980's in modeling, television commercials and print. From there she worked as a production assistant in the upstate of South Carolina with the late Ervin Melton of CarMel Motion Picture Productions. In the late 1980's Debbie put her arts and entertainment career in hold for a number of years and chose a new career path in the technical and design field while raising her two sons. Debbie has worked with companies such as Lockheed Martin, Fluor Corporation and NASA. In May of 2012, Debbie moved to California to expand her production base and further her career in the film industry. As a native of South Carolina, Debbie continues to write direct and produce on both the east and west coasts.

### **Executive Producer / Co-writer / Editor**

**Brian Q. Kelley**

IMDb: <http://www.imdb.com/name/nm1776409/>

As an editor, Brian is established as one of the leading creative and technical experts in the field of non-linear video editing. His career spans over 30 years in the film and video production, post-production and special effects. Brian has produced and supervised numerous projects for many entertainment and advertising clients, in the area of film, video, DVD and multimedia technologies. From the digital restoration of Citizen Kane, to working on segments for the Star Wars Trilogy, Brian's work can be seen in feature films and broadcast television.

### **Creator / Writer**

**Danielle Leslie**

Danielle lives in the upstate of South Carolina and can be seen on stage participating in local theatre productions at the Greenville Little Theatre and Centre Stage in Greenville, SC. Danielle began her journey and labor of love in 2008 with creating and writing the beautiful story of "MORNINGSIDE". One very interesting and fun fact about Danielle is that she started writing short stories at the age of 8 and she often asked her young friends to act out the roles. Danielle continued her writing through her school years and beyond. Writing and acting are truly Danielle's passion.

## **DIRECTORS STATEMENT**

**Debbie P. Kelley**

Morningside has been a very long journey and it certainly has been a labor of love for all involved. I met Morningside's Creator, Danielle Leslie in 2008 while working backstage during a theater production in SC. She asked if I would to read her script, and the rest is history. I am proud to be a part of the team that helped to breathe life into the great story of Morningside.

In January 2013, I started co-writing and collaborating with Danielle and we spent countless hours over the phone and through emails from the west coast to the east coast. We began the process of building the script, creating new characters and giving more depth and complexity to the storyline to gear it toward episodic viewing.

This project had its challenges and I must say that it almost didn't make it. Just to mention a few things that happened during production and post-production, we had a broken camera card, damaged footage, loss of two computer hard drives and project rough cuts, we lost three of our film locations on the day of production, one of our main actresses was unable to continue due to a sudden medical crisis, and sadly, I received the news while on set that my dear friend and actor, R. Hugh McLean had tragically passed away. We had cast Hugh in the role of the Father of Noah Douglas. We chose to memorialize Hugh's memory by listing him on the end credits.

This has been one amazing journey and I have enjoyed every step of the way. When I reflect back on this project, it is one of great perseverance, building and gaining invaluable knowledge and relationships while learning some life lessons along the way. Our team pushed through the obstacles and remained diligent and focused on the goal. I cannot begin to express my gratitude to all of the cast and crew and to everyone that was involved in the making of Morningside.
